

ALL SEASON TDH TRACTOR FLUID

PRODUCT DESCRIPTION & BENEFITS

Commercial tractor fluid low viscosity is a multifunctional fluid formulated specifically for tractors using a centralized system to lubricate the transmission differential wet break, power steering and hydraulic systems.

- Recommended for equipment with common transmission, hydraulic, final drive and wet break sump where intermixing may occur due to implement attached
- Specially designed for low temperature performance
- Outstanding frictional properties provide chatter free operation of wet breaks
- Prolongs life of oil seals, hydraulic hoses and other rubber parts
- Protects gears, pumps and other parts from wear due to high loads
